

Flatiron's projects have been recognized by some of the construction industry's top owners, associations, organizations and publications. Our projects are often large and complex, requiring an ability to work together toward common goals. Our success is very much dependent upon our relationships with owners, partners, designers and subcontractors. These awards serve as recognition of these partnerships and the resulting successful projects. For a complete list of Flatiron's awards, visit [www.flatironcorp.com/awards](http://www.flatironcorp.com/awards).
